

Proven Effective Early Warning System

Traditionally, Early Intervention Systems (or Early Warning Systems), identify patterns of undesirable behavior. Guardian Tracking's Early Intervention goes deeper and provides a complete picture of an employee's performance throughout their career, wherever they go.

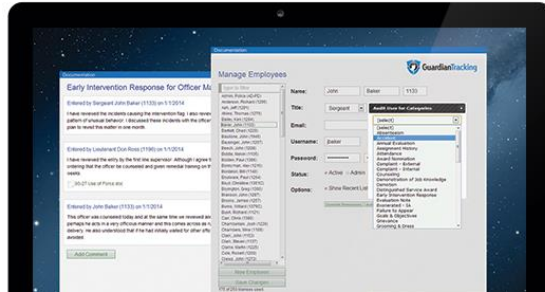

LEARN MORE

1 Early Intervention

Early Intervention is an essential step in building a desirable, productive workplace that helps create leaders from within. Guardian Tracking's early intervention system goes beyond highlighting negative employee performance; our software also provides positive performance flags. Guardian Tracking's positive recognition feature then ignites motivation and continued success.
